

PROFESSIONAL SUMMARY

Highly knowledgeable graduate with extensive studies in computer science and engineering. Experienced in designing, building, and maintaining robust data infrastructures. Recognized for significant research advancements, industry expertise, and the seamless execution of complex projects. Passionate about leveraging data for insights and innovation, with a strong interest in machine learning to drive predictive analytics and intelligent decision-making.

WORK EXPERIENCE

ECE Department Florida International University (FIU)

Graduate Research Assistant

Miami, FL

Jul 2024 - Present

- Designed an 8–16GHz prototype antenna for integration with the ADAR1000 beamforming IC for ML-based DoA estimation exploiting distributed sparse arrays, covariance matrix decomposition and weighted subspace fitting.
- Developed and evaluated LSTM- and Transformer-based models to predict RNA 3D structure from sequence data.
- Applied transformer-based malware classification to Speakeasy PE dynamic traces, integrated attention-based token attribution to explain predictions, and introduced a zero-day family-holdout evaluation - 93% accuracy.

Ernst&Young

Data Engineer

Athens, GR

Feb 2022 - Jun 2024

- Conducted source system analysis and data profiling to streamline the migration of on-premises Oracle databases to the Snowflake warehouse, built on Data Vault 2.0 modeling principles ([SnowPro Core](#) certified).
- Developed mapping logic to ensure seamless integration between source systems and the data warehouse.
- Designed, developed and deployed data pipelines for both streaming and batch-oriented data ingestion and loading using Apache Airflow.
- Implemented data transformations utilizing DBT to meet the specific analytics and reporting requirements.
- Conducted testing and documentation of data pipelines, ETL processes and Data Warehouse solutions.
- Developed interactive dashboards using Power BI and Tableau for comprehensive data visualization and analysis.
- Acquired proficiency in Agile methodologies (Scrum, Kanban).

CERN EP-DT

Electronics Engineer

Geneva, CH

Aug 2019 - Oct 2020

- Developed a state-of-the-art prototype nanoscale beam monitoring system using microfabrication.
- Gathered experimental data and conducted in-depth data analysis utilizing Python.
- Performed adhesion, electrical and electronics tests.
- Participated in irradiation campaigns, surface analysis (FIB-SEM), PCB design and wire-bonding testing.

National Centre for Scientific Research (NCSR) DEMOKRITOS

Electronics Engineer (intern)

Athens, GR

Jul 2018 - Sep 2018

- Designed photolithography masks for fabricating nanoscale memristors in a crossbar architecture.
- Studied models, types and I-V characteristics of memristors.

CDD Ltd – Embedded Systems

Electronics Engineer – Developer (intern)

Athens, GR

Jul 2017 - Sep 2017

- Developed a pedometer application on STM32 NUCLEO-F0070RB and BLEnano using IAR Embedded Workbench, working with SPI, I2C and UART protocols.
- Developed a Graphical User Interface (GUI) using Visual Studio(C#) for the demonstration of pedometer response.

EDUCATION

ECE Department Florida International University (FIU)

MS in Electrical and Computer Engineering with focus on AI

Miami, FL

Aug 2024 - Dec 2025

Democritus University of Thrace (DUTH)

Bachelor and M.Eng. in Electrical and Computer Engineering, 300 ECTS, GPA: 3.5/4

Xanthi, GR

Sep 2014 - Mar 2021

- [Thesis](#) with association to École Polytechnique Fédérale de Lausanne (EPFL): “Fabrication and characterization of ultra-high level radiation sensors with thin-film nanolayers”

SKILLS

Programming: Python ▪ SQL ▪ R ▪ C/C++ ▪ MATLAB ▪ JavaScript/HTML/CSS ▪ LaTeX ▪ VBA
Data Engineering & Cloud: [Snowflake](#) ▪ Azure ▪ Oracle ▪ [Apache Airflow](#) ▪ DBT ▪ [Data Vault 2.0](#) ▪ [Databricks](#)
Data Visualization: Power BI ▪ Tableau
Software: Visual Studio ▪ AWS Redshift ▪ DBeaver ▪ GitLab ▪ SQL Server ▪ Docker ▪ AutoCAD ▪ Kafka
ML & DL: Pytorch ▪ Tensorflow ▪ Keras ▪ Numpy ▪ Pandas ▪ Matplotlib ▪ Sklearn ▪ OpenCV
Technical: Microfabrication ▪ Lab electronics and instrumentation ▪ Prototyping ▪ Scientific writing
Soft-Skills: Teamwork ▪ Communication ▪ Project Management ▪ Public Speaking
Languages: English (C2) ▪ French (A1) ▪ Greek (Native) ▪ Russian (Native)

PUBLICATIONS

D. Bouvet, I. Mateu, **V. Meskova**, F. Ravotti, J.M. Sallese, etc., “Low-mass radiation-hard beam profile monitors for high energy protons using microfabricated metal thin films”, *9th Int. Conf. on Rad. in various fields of research*, vol. 5, 2021.

V. Meskova, O. Sidiropoulou, G. Pezzullo, I. Mateu, F. Ravotti, B. Gkotse, W. Farabolini, etc., “Beam Profile Monitor for high energy proton beams using microfabrication techniques”, *9th Int. Beam Inst. Conf.*, vol. TUPP37, pp.86-89, 2020.

V. Meskova, O. Sidiropoulou, G. Pezzullo, I. Mateu, F. Ravotti, D. Bouvet, J.M. Sallese, B. Gkotse etc., “Ultra high-level radiation monitoring with thin metal nano-layers”, *Public deliverable for the ATTRACT Final Conf.*, 2020.

LEADERSHIP AND TEACHING EXPERIENCE

IEEE Industry Applications Society DUTH Student Branch

Chairperson

Xanthi, GR

Apr 2017 - May 2018

- Supervised the fundraising, promotion, human resources, magazine, humanitarian, website teams.
- Organized lectures, webinars, academic visits, social events. Redesigned and updated DIPLOMA magazine, created logos, edited promotional videos, designed posters and banners.
- Coordinated the 2nd IEEE R8 Mediterranean IAS SBC Intern. Workshop 2017, hosting 40 intern. participants.
- Attended the Intern. Conference IAS Annual Meeting in Cincinnati, USA, as the representative of the Branch.

IEEE Student Branch of Thrace

Instructor at Arduino Workshop

Xanthi, GR

Jun 2017 - Mar 2017

- Led Arduino programming workshops for freshmen, providing hands-on instruction and guidance.

TRAININGS

- [Software Engineering | Data Stores & Big Data | Business Intelligence Ecosystem](#)
ReGeneration Academy and Code.Hub (100 hours) Dec 2021 – Feb 2022
Athens, GR
- Operation of 20+ Microfabrication Machines in the cleanroom
Center of MicroNanotechnology (CMi) EPFL Aug 2019 - Sep 2020
Lausanne, CH
- Communication skills | Project managements
Electrical Engineering Students' European Association Apr 2016
Xanthi, GR

CONFERENCES AND DISTINCTIONS

- 9th Intern. Beam Instrumentation Conf.; author and poster presenter Brazil, 2020
- ATTRACT Final Conference 2020; author and poster presenter 2020
- 8th Beam Telescopes and Test Beams Workshop; co-author Tbilisi, GE, 2020
- 17th Intern. Conf. on Accelerator and Large Exp. Physics Control Systems; co-author NY, USA, 2019
- Awarded by the Chair of ECCE Department for co-organizing 10th Panhellenic Students' Conference of Electrical and Computer Engineering (ECESCON); co-organizer Xanthi, GR, Oct 2018
- 2nd place, IEEE IAS CMD Outstanding Chapter Award of the Year 2017; chairperson Cincinnati, USA Oct 2017
- 2nd place, Project Award, Panhellenic Robotics, Research and Innovation Competition for Children, First Lego League 2017; robotics instructor Thessaloniki, GR, Mar 2017
